It is very gratifying to note by the following extract from the report for 1908, of the United States Secretary of State for Agriculture, that he favours the adoption of the federal system of grain inspection in vogue in Canada, which produces a uniformity in grades that would not otherwise exist if subject to provincial control:

### ‘INSPECTING AND GRADING COMMERCIAL GRAIN.

‘While many of the influential grain dealers of the country are working hard to bring about a more satisfactory and uniform system of inspecting and grading grain in the various markets, it is believed, as stated in my last annual report, that the end to be attained can be brought about only through *National inspection* of all grain entering into interstate and foreign commerce.’

The net increase for the year is 35, and is almost wholly due to elevators, but the licensing of space in elevators is on the decrease.

As has been pointed out on a previous occasion, all license holders are bonded, thus securing the grain growers against loss in marketing their products.

Of the total number of surveys held for the crop year 1908 only 3.60 per cent show inspector's grading not sustained, and that for the six months to February 28, 1909, only 4.45 per cent.

Considering the great number of cars inspected for both periods and the variety of grades for each kind of grain, the number of surveys held, and the low percentage of these not sustained, the results speak favourably for the manner in which the work of inspection is performed.

As shown in the foregoing statements, Canada ranks sixth on the list as a producer of oats, and eighth as a producer of barley.

The position thus held in the production of these cereals should at this period of the country's progress, prove gratifying to all Canadians.

## VIII.—PROCLAMATION OF THE GOVERNOR GENERAL OF THE COMMONWEALTH OF AUSTRALIA, DATED NOVEMBER 10, 1908, AS TO THE IMPORTATION OF CERTAIN MATCHES.

(Commonwealth of Australia Gazette No. 59, of November 14, 1908.)

Whereas by the *Customs Act, 1901*, it is enacted that all goods, the importation of which may be prohibited by Proclamation, are prohibited imports: And whereas it is desirable to prohibit the importation into the Commonwealth of matches and vestas containing the substance usually known as white or yellow phosphorus: Now, therefore, I, William Humble, Earl of Dudley, the Governor General aforesaid, acting with the advice of the Federal Executive Council, do hereby prohibit as from the first day of January, 1909, the importation into the Commonwealth of matches and vestas containing the substance usually known as white or yellow phosphorus.

IX.—CIRCULAR-LETTER OF THE COMPTROLLER-GENERAL, DEPARTMENT OF TRADE AND CUSTOMS, DATED NOVEMBER 16, 1908, WITH REGARD TO THE APPLICATION OF *ad valorem* RATES OF DUTY.

The following statement with regard to the requirements of the Australian Customs, in connection with the question of the value of duty of goods liable to *ad valorem* rates, issued by direction of the Minister for Trade and Customs, may be of value to merchants and manufacturers doing business with Australia:—

Section 154 (a) of the Customs Act, 1901, provides that 'when any duty is imposed according to value, the value shall be taken to be the fair market value of the goods in the principal markets of the country whence the same were exported in the usual and ordinary commercial acceptance of the term and free on board at the port of export in such country, and a further addition of ten per cent on such market value.'

In assessing the free on board value of goods subject to *ad valorem* duty in terms of the above quoted section of the Customs Act, 1901, the following charges are included, viz.:

*Charges included in Value for Duty.*

Inland carriage, coastal freight, and other charges (including lirage) incurred in conveying the goods to and placing them on board the exporting vessel;

Cost of labour and materials (except outside packages) used in packing, including flock, kapok, straw, and other inside packing;

Insurance to port of shipment;

Canal dues;

and the following are *excluded*, viz.:

*Charges excluded from Value for Duty.*

Outside packages (including zinc linings and tarred paper) in which goods are ordinarily imported;

Agents' charges;

Bank exchange;

Buying commission;

Brokerage;

Dock dues;

Export duty;

Insurance—over-sea;

Interest;

Postage and petties;

Sea freight—over-sea;

Stamp duty on bills of lading.

In all cases import duty is chargeable in Australia on the net price at which similar quantities of the goods could be bought by a cash purchaser for home consumption in the country of export, plus the charges enumerated above as *included* in the value for duty. Any special discounts allowed, or reduced prices charged, to branch houses, or to agents purely by reason of agency existing, and any discounts or reduction in price allowed for export and not for home consumption, are therefore not recognized by the Department in determining the value for duty.
